

Dutch Drinking Water For All!

Do you ever think about your access to drinking water when you turn on the tap? The Netherlands is internationally recognized as the world leader in the production and distribution of drinking water. What flows straight from the tap in this country is, unfortunately, just a dream in countries like Kenya. But clean drinking water is a human right, and you cannot live without it. That is why we believe that everyone, just like the Dutch, should have access to Dutch Water: truly clean drinking water that does not make you sick and is an essential building block for a healthy and happy life. Our mission? To give as many people as possible access to drinking water of Dutch quality.

Dutch Water for all!

Our water has been rated
the best in the entire region
by independent bodies.

At present, donations are helping to provide
60 schools
with clean, safe drinking water.

Sponsor a water tank for a Kenyan school!

Virtually all schools in Mombasa rely on large water tanks on their own premises, which we can fill with Dutch Water so that they can use it independently. At present, this is the only way for them to access clean drinking water. And the results speak for themselves: the schools we supply have reported that the children who drink our water are much healthier and can concentrate better at school. However, many schools cannot afford such a tank and are therefore unable to store our drinking water. Naturally, we'd love to change that!

"The news of supply of Dutch Water is usually taken as a real rescue."

- Madam Rita, Headteacher Frere Town Comprehensive School

"This water is liquid gold!"

- Mr Nahashon Nyawa, director Utange Baptist Primary School

A 10,000-litre water tank costs €1,000. With a full tank, a school with over 1,400 children can be independently supplied with drinking water for a week, and we can continue to refill it weekly for up to 15 years. We are looking for sponsors who would like to donate either the full cost of a tank or a portion of the costs. Will you sponsor a whole tank? If so, we can put your (sponsor) name on the tank!

Sponsor a water tank and help the children of Mombasa make a fresh start!
